

SUMMER ONLINE GRADUATE COURSES FROM THE

University of South Carolina

COLLEGE OF EDUCATION

Summer II -six weeks

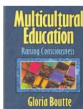

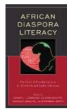

(SELF-PACED COURSES

TO COMPLETE AT YOUR CONVENIENCE BETWEEN

June 21-July 31, 2021)

About the Instructor: Dr. Gloria Swindler, Carolina Distinguished Professor, is the author of five books and approximately 100 articles. She has presented nationally and internationally on teaching culturally and linguistically diverse students.

Her courses are transformational and help teachers reclaim the joy of teaching so that they view teaching culturally and linguistically diverse students as exhilarating.

Comments From Previous Students

EDTE 776

- Awesome Course! Dr. Boutte is an AMAZING professor! This class should be REQUIRED for ALL students who are interested in going into the educational field (not just elementary education, but middle and secondary education too). I wish I had the opportunity to take this class prior to entering the classroom. I loved everything about this class!
- Dr. Boutte was very passionate about this topic and it was evident through her teaching! I would absolutely recommend this course to other students and hope to take another class taught by Dr. Boutte.
- Excellent class instructions, resources, and student participation. This class, Educating African American Students demonstrates how important it is to know and respect the culture background of African Americans as well as all ethnic groups in our educational institutions (schools and colleges). I will become a better teacher because of this class.
- Great course!
- Outstanding rigorous course! The best class and most informed professor I have experienced.

EDTE 779

- Dr. Boutte is an absolute treasure!! She is well-informed and transformative in her teaching of this course, as well as also very caring. So glad my summer schedule had room for this offering. Forever changed for the better!! EDTE 776 should become a required course for anyone seeking an Education Major as an undergrad. More cultural relevant courses are needed for undergrads.
- This course would be valuable for practicing teachers and/or teachers seeking a M. Ed. degree. I've been teaching for 20+ years and the information and knowledge I received from this course has opened my mind and my heart to culturally relevant teaching. Wish I'd had the opportunity to have this information years ago. The readings were informative and the discussions were enriching.
Thank you Dr. Boutte!
